

# METAL BUILDING PARTS & SALES

*The **RESOURCE** for a unique metal building part or repair project as well as the everyday pieces and parts of a metal building.*

**Metal Building Parts** - With a large catalog of components, we are a one-stop supplier for all the parts of a metal building. Our specialized knowledge of metal buildings will help match an existing design, find parts for a repair, or locate a unique component.

**Metal Building Repairs** - For small repairs as well as large renovation projects, we supply the material and labor by subcontractors with expertise in metal buildings. Our specialists work on all brands of metal buildings and mini storage buildings.

**Metal Building Insulation** - As an authorized dealer for Low-E Reflective and Class A White, we supply all types of insulation for a metal building including fiberglass, insulated metal panels, and High R Systems. Meet the new energy codes with a hybrid of Low-E plus 6" fiberglass = R30.

**Metal Building Inspections** - We have a certified metal roof inspector with expertise in finding the unusual leak or preparing a repair estimate on a damaged building. Ensure a metal building is in top condition with a yearly maintenance inspection, job completion inspection, or warranty inspection.

**Metal Buildings** - Our experience working with metal buildings helps sort through the many options available. We coordinate with manufacturers, architects, engineers, and owners to prevent expensive time delays in the design phase, ordering process, and on the job-site.

**Metal Building Panels** - As a metal building specialist, we explain the choices and help find the right panel for a metal building project. We offer a wide range of metal roofing and wall panel profiles, colors, gauges, and finishes to match any metal building design.

Metal Building Parts & Sales has specialized in metal buildings since 1994 with projects throughout the United States concentrating in Virginia and the Carolinas.

<p><b>7/8" Corrugated</b></p>	 <p>7/8" 32" (Roof Coverage) 34-20" (Wall Coverage)</p>	

**Metal Building Insulation** - We supply all types of insulation for a metal building including the Low-E brand of Reflective Insulation, fiberglass, insulated metal panels and High R Systems. One solution to meet the new energy code requirement is the hybrid system consisting of 6" faced fiberglass with Low-E.

**Meet the new energy codes with a Hybrid System**  
**ESP Low-E + 6" Fiberglass = R30 Roof Insulation**

Class A White Insulation - Install over old insulation for a fresh new look. Meet the visual and thermal criteria for an interior repair while providing one of the safest exposed interior finishes on the market with a flame rating of 10 and smoke rating of 15.

Therma-Sheet - An approved stand-alone roofing underlayment that is very lightweight, easy to install, and provides excellent thermal and moisture protection under metal roofing, stone-coated steel, clay tiles, and composite shingles.

**Metal Building Parts & Sales Inc.** has specialized in Metal Buildings since 1994 with projects throughout the United States concentrating in Virginia and the Carolinas. We are a Virginia Class A contractor with our main office in North Myrtle Beach and a satellite office in Richmond, Virginia.
